Hurlstone Agricultural High School is committed to providing supportive and engaging learning environments throughout the day and boarding school. We value the rich and deep learning experiences that technology can provide in a stimulating and challenging academic environment and in supporting communication and collaboration in a residential setting. With the demise of the Digital Education Revolution, Hurlstone is providing students and families the opportunity to provide their own device for learning and educational activities.

ii. Student Assistance Scheme (PD/2005/0241/V02)

Objectives
1. To facilitate and promote the bringing of a computing device to school by all students in Years 7 - 12 for use in their education.
2. To ensure equity in the BYOD program and its implementation.
3. To ensure all students have access to appropriate technological resources in their classes.
4. To provide a framework through which family requests for assistance can be managed consistently.

Actions
Hurlstone Agricultural High School:

1. Endeavour to provide personal access to appropriate technology resources to all students operating under the school’s Bring Your Own Device program in keeping with the objectives of that policy and with respect to its role as a public education institution.
2. Ensure the BYOD Program’s Device Specification is designed so that a range of devices in capability and cost are suitable and meet the Specification.
3. Assess applications for assistance in meeting the requirements of the BYOD program on an individual basis. Due consideration will be given to all the facts of the matter, including:
   - The level of assistance requested.
   - Existing disbursements from the Student Assistance Scheme.
   - The Year of the student.
   - The subjects the student undertakes.
   - The technology already available to the student at school and at home.
4. Consult with the parent/guardian in making determinations as to what form any assistance will take.
5. Consider a range of alternatives for providing device access for students, including:
   - Priority or reserved access to desktop computers in computer labs or the Library during class time, study periods, before or after school or during breaks.
   - Loan of a laptop or other device for a particular period or class.
   - Loan of a laptop or other device for a particular day.
   - Recurrent daily loan of a laptop or other device.
6. Make a written agreement between the school, student and parent/guardian that specifies the arrangements agreed upon or determined for facilitating access to technological resources.
7. In most circumstances, will not loan a laptop or other device to a student overnight, over a weekend or over a holiday period.
8. Provide a protocol for ensuring priority or reserved access to desktop computers where this access is considered appropriate.
9. Provide a protocol for signing out and signing back in a laptop or other device from the TSO and follow up any cases where the loaned device is not returned in accordance with the agreement.

Students and Parents/Guardians:

1. Consider your options for the purchase or lease of equipment that meets the Device Specification. Hurlstone Agricultural High School will endeavour to make a broad selection of devices in a range of price points match the Specification.
2. If you believe you are unable to provide a device that meets the specification:
   a. Make an application in writing to the Principal, or make an appointment to speak with the Principal and indicate you require assistance in addressing the school’s Bring Your Own Device program.
   b. The school will liaise with you, your child and their teachers to identify the most appropriate way to address the issue and ensure they have appropriate access to the technological resources of their peers.
   c. You will be asked to make an agreement with the school that confirms the alternative arrangements made for your child’s access to technological resources.
3. The school will not purchase a device to assign to your child nor will the school make a device available for permanent or semi-permanent loan. In substitution of a personal device the school will consider options including:
   - Priority or reserved access to desktop computers in computer labs or the Library during class time, free periods, before or after school or during breaks.
   - Loan of a laptop or other device for a particular period or class.
   - Loan of a laptop or other device for a particular day.
   - Recurrent daily loan of a laptop or other device.
