3. How have schools been selected to take part?

The survey is open to all NSW government schools at no cost to them. Your child’s school has decided to participate.
4. How will taking part in this survey benefit my child’s school?

The Tell Them From Me student survey will provide school principals and school leaders with insight into student engagement, wellbeing and effective teaching practices at their school, from the perspective of students.

Data collected from the survey responses are quickly compiled into reports for school leaders. Principals can then use this information to help them identify emerging issues and plan for school improvement.

5. What does my child need to do to participate in the survey?

The survey typically takes less than 30 minutes and is conducted entirely online through a secure website operated by the survey developers, The Learning Bar. Schools will make computers or laptops available so that students can complete the survey during school hours.

6. Does my child have to participate?

No, participation in the survey is optional. Your child will not take part if either you or your child do not wish. If, during the survey, your child is uncomfortable, he/she can choose to stop the survey at any time. The majority of questions in the survey can be skipped. Parents/students have a right to apply for access to, and correction of, a student’s information.

7. Will the school be able to identify my child from their responses?

Staff in schools will not be able to identify individual students from their responses. To ensure confidentiality, participating students will receive a unique username and password. Where fewer than five students respond to a question, the results will not be made available.

8. What sort of analysis will be done of the survey data?

Once the surveys are completed by students, reports are prepared and in most cases are available to schools within three business days. School leaders can use the data to better understand the experiences and views of students at their school.

The results will help all schools better understand the relationship between wellbeing, engagement, effective teaching and student learning. Results from CESE’s analysis of this data will also help teachers and principals discuss what works to improve student outcomes. This supports the Department’s continuing focus on quality teaching and leadership. The data will be retained for future analysis to help us better understand the nature of student engagement and wellbeing over time.

9. Can all school students participate in the survey?

The primary school survey is designed for students in Years 4 to 6. Schools are encouraged to allow as many students as possible in these Year groups to participate. Secondary schools are encouraged to allow as many students as possible in Years 7 to 12 to participate.

10. When will the Tell Them From Me survey happen?

The surveys will be conducted in all participating schools at the end of Term 1 and (optionally) Term 3.

What is CESE?

The Centre for Education Statistics and Evaluation (CESE) is part of the Department of Education.

CESE has been established to improve the effectiveness, efficiency and accountability of education in New South Wales.

CESE will identify and share what works, creating new opportunities to improve teaching and learning across all of education.

What is The Learning Bar?

The Learning Bar is a Canadian education company that specialises in school surveys for both primary and secondary students.

Its survey, Tell Them From Me, is the largest national school survey in Canada, used in nine of Canada’s ten provinces. More than 2,600 schools and 1.7 million Canadian students have participated in the survey over the last nine years. Australian schools have been participating in the Tell Them From Me surveys since 2012.

The Learning Bar is led by Dr J Douglas Willms. Dr Willms is a Professor and Director of the Canadian Research Institute for Social Policy at the University of New Brunswick, and holds the Canada Research Chair in Literacy and Human Development. Dr Willms led the development of questions on student engagement for the OECD’s Programme for International Student Assessment (PISA).
