| 1    | Research Assignment Bovine Reproduction Research | 15% | 3 knowledge of and skills in the effective and responsible production and marketing of agricultural products.  
5 skills in problem-solving including, investigating, collecting, analysing, interpreting and communicating information in agricultural contexts. | Explains and evaluates the impact of management decisions on animal production  
Investigates and implements responsible productions systems for plant and animals enterprises. |
| 2    | Betsy – Artificial Cow Practical Quiz | 10% | 6 knowledge and skills in implementing cooperative and safe work practices in agricultural contexts. | Explains and evaluates the impact of management decisions on animal production  
Implements and justifies the application of animal Welfare guidelines to agricultural practices. |
| 3    | Research and Oral Powerpoint on an Agricultural Enterprise | 20% | 2 knowledge and understanding of the local and global interaction of agriculture with Australia’s economy, culture and society.  
1 knowledge and understanding of agriculture as a dynamic and interactive system that uses plants and animals to produce food, fibre and other derivatives.  
5 skills in problem-solving including, investigating, collecting, analysing, interpreting and communicating information in agricultural contexts. | Explains the interactions within and between the agricultural enterprises and systems  
Explains why identified plant species and animal breeds have been used in agricultural enterprises and developed for the Australian environment and/or markets. |
| 4    | Yearly Examination | 30% | 3 knowledge of and skills in the effective and responsible production and marketing of agricultural products.  
2 knowledge and understanding of the local and global interaction of agriculture with Australia’s economy, culture and society.  
1 knowledge and understanding of agriculture as a dynamic and interactive system that uses plants and animals to produce food, fibre and other derivatives.  
4 an understanding of sustainable and ethical practices that support productive and profitable agriculture. | Investigates and implements responsible productions systems for plant and animals enterprises.  
Explains and evaluates the impact of management decisions on animal production  
Evaluates management practices in terms of profitability, technology, sustainability, social issues and ethics  
Explains the interactions within and between agricultural enterprises and systems. |
| 5    | Practical Task | 25% | 6 knowledge and skills in implementing cooperative and safe work practices in agricultural context. | Applies Occupational Health and Safety requirements when using, maintaining and storing chemicals, tools and agricultural machinery  
Implements and justifies the application of animal welfare guidelines to agricultural practices. |

| 1    | Half Yearly Examination | 20%                  | • MA5.1-1WM uses appropriate terminology, diagrams and symbols in mathematical contexts  
• MA5.1-2WM selects and uses appropriate strategies to solve problems  
• MA5.1-3WM provides reasoning to support conclusions that are appropriate to the context  
• MA5.2-1WM selects appropriate notations and conventions to communicate mathematical ideas and solutions  
• MA5.2-2WM interprets mathematical or real-life situations, systematically applying appropriate strategies to solve problems  
• MA5.3-1WM uses and interprets formal definitions and generalisations when explaining solutions and/or conjectures  
• MA5.3-2WM generalises mathematical ideas and techniques to analyse and solve problems efficiently  
• MA5.3-3WM uses deductive reasoning in presenting arguments and formal proofs  
• MA5.1-8MG calculates the areas of composite shapes, and the surface areas of rectangular and triangular prisms  
• MA5.1-9MG interprets very small and very large units of measurement, uses scientific notation, and rounds to significant figures  
• MA5.2-11MG calculates the surface areas of right prisms, cylinders and related composite solids  
• MA5.2-12MG applies formulas to calculate the volumes of composite solids composed of right prisms and cylinders  
• MA5.3-13MG applies formulas to find the surface areas of right pyramids, right cones, spheres and related composite solids  
• MA5.3-14MG applies formulas to find the volumes of right pyramids, right cones, spheres and related composite solids  
• MA5.2-7NA applies index laws to operate with algebraic expressions involving integer indices  
• MA5.3-6NA performs operations with surds and indices  
• MA5.2-17SP describes and calculates probabilities in multi-step chance experiments  | • Recalls mathematical facts and operations  
• Applies mathematical facts and operations  
• Applies knowledge and skills to problem solving  
• Ability to solve mathematical problems without the use of a calculator  |
| 2 | Personal Interest Project | 20% | Students will be required to choose an area of mathematics and investigate how this area will benefit the world in the next 10 years.  
Students will be required to present their work in a suitable fashion and explain why the particular area mathematics will have a significant impact. |
|---|---|---|---|
| 3 | Yearly Examination | 40% | In addition to outcomes addressed in Task 1:  
MA5.2-14MG calculates the angle sum of any polygon and uses minimum conditions to prove triangles are congruent or similar  
MA5.3-16MG proves triangles are similar, and uses formal geometric reasoning to establish properties of triangles and quadrilaterals  
MA5.3-17MG applies deductive reasoning to prove circle theorems and to solve related problems  
MA5.2-13MG applies trigonometry to solve problems, including problems involving bearings  
MA5.3-15MG applies Pythagoras’ theorem, trigonometric relationships, the sine rule, the cosine rule and the area rule to solve problems, including problems involving three dimensions  
MA5.2-6NA simplifies algebraic fractions, and expands and factorises quadratic expressions  
MA5.2-8NA solves linear and simple quadratic equations, linear inequalities and linear simultaneous equations, using analytical and graphical techniques  
MA5.2-9NA uses the gradient-intercept form to interpret and graph linear relationships  
MA5.3-7NA solves complex linear, quadratic, simple cubic and simultaneous equations, and rearranges literal equations  
MA5.3-8NA uses formulas to find midpoint, gradient and distance on the Cartesian plane, and applies standard forms of the equation of a straight line  
MA5.3-5NA selects and applies appropriate algebraic techniques to operate with algebraic expressions  
Recalls mathematical facts and operations  
Applies mathematical facts and operations  
Applies knowledge and skills to problem solving  
Ability to solve mathematical problems without the use of a calculator  
Develops understanding and fluency in mathematics through inquiry, exploring and connecting mathematical concepts, communication and collaboration |
|  |  | linear inequalities and linear simultaneous equations, using analytical and graphical techniques
